Jean Monnet Summer School

LOOKING FOR A ROAD MAP TO ADDRESS THE RIGHT TO HEALTH CARE: COMPARATIVE FRAMES

<https://www.santander2018-jean-monnet-summer-school.eu/>

24-28 September 2018

Santander, Spain

UIMP Universidad Internacional
Menéndez Pelayo

This Jean Monnet Summer School is an intensive training seminar to provide a comparative overview of different current challenges in the field of Health Law and Policy. The course is organised by the Jean Monnet Network in Health Law and Policy, an academic project that provides a clear focal point for the comparative study of health law and policy, for the diffusion of high-quality information, and for the training of new scholars and policy analysts. The Jean Monnet Network in Health Law and Policy is cofunded by the European Union through its Erasmus+ Jean Monnet program.

The seminar adopts a comprehensive and interdisciplinary approach and is focused on both theoretical and practical aspects exploring current legal and policy issues which impact on patients' rights and health systems. At the same time, the course will allow to compare different regional and international frames, drawing out best practices and lessons to be learned and creating a critical mass of experts in the field of health law and policy. Top scholars from across Europe and the Americas will be brought together to share their expertise in this area.

The workshop is mainly addressed to PhD candidates and early career researchers. Since the seminar offers an interactive approach, only a maximum number of 30 participants will be accepted. Reading materials will be delivered and a certificate will be awarded to participants.

Successful participants in the course will be included in a list of collaborators of the Jean Monnet Network to allow them to be involved in national and international activities. A book will be published based on seminar lectures and a selection of submitted papers of participants.

The Jean Monnet Summer School will be held in English at Campus Las Llamas: Universidad Internacional Menéndez Pelayo. Avda. Los Castros s/n, Santander, Spain. Course length will be 30 hours.

Course director:

Joaquín Cayón

Director of the research group on health law and bioethics and associate professor of health law. IDIVAL- University of Cantabria, Spain
